INDEX

VOLUME X - 1975

Abrahamson, Allen A., and John T. Emery; "Abstract--Volume and Efficiency of Speculative Markets," November, p. 535.

Ang, James S.; "A Note on the E, SL Portfolio Selection Model," December, p. 849.

Archer, Stephen H., and G. Marc Choate; "Irving Fisher, Inflation and the Nominal Rate of Interest," November, p. 675.

Arditti, Fred D.; "Skewness and Investors' Decisions: A Reply," March, p. 173.

Aspinwall, Richard C.; "Discussion: Implications of Recent Banking Developments for Financial Stability," November, p. 611.

Bawa, Vijay S., and Roger W. Klein; "Abstract--The Effect of Estmated Risk on Optimal Portfolio Choice under Uncertainty," November, p. 559.

Bear, Robert M., and Anthony J. Curley; "Unseasoned Equity Financing," June, p. 311.

Beaver, William, and James Manegold; "The Association between Market-Determined and Accounting-Determined Measures of Systematic Risk: Some Further Evidence," June, p. 231.

Beranek, William; "The Cost of Capital, Capital Budgeting, and the Maximization of Shareholder Wealth," March, p. 1.

Beranek, William; "A Little More on the Weighted Average Cost of Capital," December, p. 892.

Bey, Roger P.; R. Burr Porter; and David C. Lewis; "The Development of a Mean-Semivariance Approach to Capital Budgeting," November, p. 639.

Bierman, H.; K. Chopra; and J. Thomas; "Ruin Considerations: Optimal Working Capital and Capital Structure," March, p. 119.

Bierman, Harold, Jr., and Jerome E. Hass; "An Analytical Model of Bond Risk Differentials," December, p. 757.

Boudreaux, Kenneth J.; "Divestiture and Share Price," November, p. 619.

Bowman, Robert G.; "The Role of Utility in the State-Preference Framework," June, p. 341.

Branch, Ben; "The Optimal Price to Trade," September, p. 497.

Brennan, M. J.; "The Optimal Number of Securities in a Risky Asset Portfolio When There Are Fixed Costs of Transacting: Theory and Some Empirical Results," September, p. 483.

Budin, Morris, and Robert J. Van Handel; "A Rule-of-Thumb Theory of Cash Holdings by Firm," March, p. 85.

Burgess, Richard C., and Keith H. Johnson; "The Effects of Sample Sizes on the Accuracy of EV and SSD Efficiency Criteria," December, p. 813.

Choate, G. Marc, and Stephen H. Archer; "Irving Fisher, Inflation and the Nominal Rate of Interest," November, p. 675.

Chopra, K.; H. Bierman; and J. Thomas; "Ruin Considerations: Optimal Working Capital and Capital Structure," March, p. 119.

Cooley, Philip L., and Rodney L. Roenfeldt; "Abstract--A Canonical Analysis of Market Return-Risk and Financial Characteristics of Industrial Firms," November, p. 655.

Corbeau, Andre B., and Carl F. Meyer; "The Application of Spectral Analysis to Demonstrate the Stochastic Distortion in the Delta Midrange of Price Series," June, p. 221.

Cottle, Rex L.; "Abstract--Micro-Foundation of the Federal Funds Market," November, p. 563.

Cramer, Robert H., and Stephen L. Hawk; "The Consideration of Coupon Levels, Taxes, Reinvestment Rates, and Maturity in the Investment Management of Financial Institutions," March, p. 67.

Curley, Anthony J., and Robert M. Bear: "Unseasoned Equity Financing," June, p. 311.

Emery, John T., and Allen A. Abrahamson; "Abstract--Volume and Efficiency of Speculative Markets," November, p. 535.

de Faro, Clovis, and James V. Jucker; "A Simple Algorithm for Stone's Version of the Portfolio Selection Problem," December, p. 859.

de Faro, Clovis, and James V. Jucker; "The Selection of International Borrowing Sources," September, p. 381.

Fertuck, Leonard; "A Test of Industry Indices Based on SIC Codes," December, p. 837.

Fieleke, Norman S.; "Exchange-Rate Flexibility and the Efficiency of the Foreign-Exchange Markets," September, p. 409.

Fielitz, Bruce D.; "On the Stationarity of Transition Probability Matrices of Common Stocks," June, p. 327.

Findlay, M. Chapman, III, and Elko J. Kleinschmidt; "Error-Learning in the Eurodollar Market," September, p. 429.

Francis, Jack Clark; "Intertemporal Differences in Systematic Stock Price Movements," June, p. 205.

Francis, Jack Clark; "Skewness and Investors' Decisions," March, p. 163.

Frankfurter, George M., and Herbert E. Phillips; "Efficient Algorithms for Conducting Stochastic Dominance Tests on Large Numbers of Portfolios: A Comment," March, p. 177.

Frankle, Alan W.; "An Estimate of Convertible Bond Premiums: Comment," June, p. 369.

Fraser, Donald R., and R. Malcolm Richards; "Abstract--Further Evidence on the Random Nature of the Errors Associated with Corporate Earnings Forecasts," November, p. 653.

Gear, Anthony E., and A. Geoffrey Lockett; "Multistage Capital Budgeting under Uncertainty," March, p. 21.

Gies, T. G.; "Discussion: Banking Structure, Failures, and Financial Stability," November, p. 615.

Gonedes, Nicholas J.; "A Note of Accounting-Based and Market-Based Estimates of Systematic Risk," June, p. 355.

Goodman, Rae Jean B.; "Abstract--A Parametric Study of a Household Portfolio Selection Model," November, p. 557.

Gupta, Manak C., and David A. Walker; "Dividend Disbursal Practices in Commercial Banking," September, p. 515.

Haley, Charles W.; "A Theoretical Foundation for the Basic Finance Course," November, p. 691.

Hass, Jerome E., and Harold Bierman, Jr.; "An Analytical Model of Bond Risk Differentials," December, p. 757.

Haugen, Robert A., and A. James Heins; "Risk and the Rate of Return on Financial Assets: Some Old Wine in New Bottles," December, p. 775.

Hayes, David G.; "Discussion: Should Large Banks Be Allowed to Fail?", November, p. 617.

Hawk, Stephen L., and Robert H. Cramer; "The Consideration of Coupon Levels, Taxes, Reinvestment Rates, and Maturity in the Investment Management of Financial Institutions," March, p. 67.

Heins, A. James, and Robert A. Haugen; "Risk and the Rate of Return on Financial Assets: Some Old Wine in New Bottles," December, p. 775.

Hinich, Melvin J., and Richard Roll; "Abstract--Measuring Nonstationarity in the Stochastic Process of Asset Returns," November, p. 687.

Holland, Robert C.; "Bank Holding Companies and Financial Stability," November, p. 577.

Horvitz, Paul M.; "Failures of Large Banks: Implications for Banking Supervision and Deposit Insurance," November, p. 589.

Hughes, John S.; Dennis E. Logue; and Richard James Sweeney; "Corporate International Diversification and Market Assigned Measures of Risk and Diversification," November, p. 627.

Imai, Yutaka; "Exchange Rate Risk Protection in International Business," September, p. 447.

Ingersoll, Jonathan; "Multidimensional Security Pricing," December, p. 785.

Jacquillat, Bertrand; John G. McDonald; and Maurice Nussenbaum; "Dividend Investment and Financing Decisions: Empirical Evidence on French Firms," December, p. 791.

Jean, William H.; "Comparison of Moment and Stochastic Dominance Ranking Methods," March, p. 151.

Jennings, Edward H.; "Reply: An Estimate of Convertible Bond Premiums," June, p. 375.

Johnson, Glenn L.; Frank K. Reilly; and Ralph E. Smith; "A Correction and Update Regarding Individual Common Stocks as Inflation Hedges," December, p. 871.

Johnson, Keith H., and Richard C. Burgess; "The Effects of Sample Sizes on the Accuracy of EV and SSD Efficiency Criteria," December, p. 813.

Joy, O. Maurice, and John O. Tollefson; "On the Financial Applications of Discriminant Analysis," December, p. 723.

Jucker, James V., and Clovis de Faro; "A Simple Algorithm for Stone's Version of the Portfolio Selection Problem," December, p. 859.

Jucker, James V., and Clovis de Faro; "The Selection of International Borrowing Sources," September, p. 381.

Kallio, Markku, and James A. Ohlson: "A Note on the Representation of Bounded Utility Functions Defined on [a,∞]," June, p. 377.

Kim, Young Y., and James E. Meyer; "An Autoregressive Forecast of the World Sugar Future Option Market," December, p. 821.

Klein, Roger W., and Vijay S. Bawa; "Abstract--The Effect of Estimated Risk on Optimal Portfolio Choice under Uncertainty," November, p. 559.

Kleinschmidt, Elko J., and M. Chapman Findlay III; "Error-Learning in the Eurodollar Market," September, p. 429.
